TwinStripes Leather Jacket

The TwinStripes leather jacket for women, with its classic sporty design, revives memories of the past. The typical white decorative lines on the sleeves set traditional visual accents that can also be found on many BMW motorcycles. The jacket is made of approx. 1.2 mm thick cowhide leather that is characterized by high wearing comfort and a sporty appearance. Features such as the continuous metal zip with backed wind strip, the ventilation zip on the back, the high quality lining, four closable outside pockets and three closable inside pockets make this casual motorcycle jacket suitable for everyday use. Modern NPFlex protectors are concealed under the leather on the shoulders and elbows, which hardly wear and offer the highest wearing comfort and good shock absorption values. An NPL back protector can be retrofitted. The 40 cm wide connecting zip also offers the option of attaching the leather jacket to motorcycle pants.

**MSRP
\$699**

Product highlights

- Classic sporty motorcycle jacket made of cowhide leather.
- Completely lined, a total of seven pockets.
- Connecting zip fastener: 40 cm
- NP-Flex protectors on shoulders and elbows (EN1621-1:2012)
- NPL back protector, retrofittable

PureBoxer Leather Jacket

It evokes memories of the early years of motorization: the classic cut leather jacket PureBoxer has an understated design, as was common in the early years of last century. At the same time, it stands out due to its outstanding functionality, which makes motorcycling comfortable and protected. Even the exclusive 1.2 mm thick horse leather is characterized by a very smooth surface, slight grain and fine sheen. Regular wear gives this leather a very beautiful patina that enhances the vintage look over time. Additional high quality details such as the metal zip with underlaid wind strip, the classic press studs, the closable outside- and inside pockets, and the removable, quilted thermal lining ensure practical qualities and maximum wearing comfort. The modern NP-Flex protectors on the shoulders and elbows are almost invisible and barely noticeable. They offer contemporary protection without affecting the classic style. An NPL back protector can be retrofitted. The replaceable BMW logo on the upper arm, which stylishly rounds off the classic look, also reveals immense attention to detail.

Adventure Neckwarmer

With the functional Adventure neckwarmer, the neck, nape and chest area are perfectly protected from wind and are kept pleasantly warm even in colder weather conditions. The tight fit ensures that the neckwarmer prevents draughts, especially in the critical area between the jacket collar and helmet. In addition, the helmet can be put on without the neckwarmer slipping down. The high-quality material selection with windbreaker membrane also guarantees very pleasant wearing comfort. The chest area is printed with a blue "Adventure" logo. The Adventure neckwarmer is breathable, temperature-regulating and extremely easy-care. It is easy to wash with a mild detergent or a functional detergent.

MIX AND MATCH/HOW TO WORK OUT YOUR SIZE

Sizes of designs with all-round zips can be combined as follows: (In other size combinations, only the 40 cm connecting zip can be used—not the all-round zip.)

		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

How to work out your size.

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and pants also have to sit right on the wearer. Your sleeves and pants legs shouldn't ride up, because if they do, it's not just a safety issue—it also means you're not properly protected against the elements.

A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the door frame and measure from the floor.

B Chest

Take this measurement while wearing a shirt or a lightweight pullover. Pass the tape measure under your arms and measure around the broadest part of your chest and over the shoulder blades.

C Waist

Measure around your shirt, just above the top of your pants. Stand in a neutral position and don't hold in your stomach—that way you'll ensure the pants sit comfortably.

D Hips

Measure around your body, above your pants and the widest point of your hips.

E Side length

Measure the distance down the outside of your leg, from the waist of your pants to the sole of your foot.

F Step length

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes.

To find the one that's right for you, grab your tape measure and follow these simple instructions.

IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

Comfort fit:

More generous cut offering greater freedom of movement

Regular fit:

Closer, anatomical fit
